

# The T-WALL® Solution

PROJECT: **GREEN MOUNTAIN RAILROAD BRIDGE**

LOCATION: **Rockingham, VT**

PROBLEM: *Replace a failing stone abutment on this 104 year old railroad bridge.*

**SOLUTION:** *The project was completed in a record 68 hours by preengineering the abutment and working around the clock. Utilizing the precast T-WALL System saved 40 hours of down time on this busy east-west corridor for the Green Mountain Railroad.*

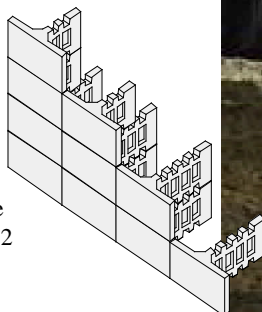

OWNER: *State of Vermont*
